

SURECLEAN SYSTEMS

SOLAR CLEAN PRO

Professional solar and photovoltaic panel cleaning concentrate

Product Overview

Solar Clean Pro is a concentrated, surfactant-based cleaning solution developed for the effective removal of everyday dirt and contamination from photovoltaic solar panels and associated glass surfaces. The non-caustic formulation is designed to provide effective cleaning while being gentle on the surfaces being treated.

Key Benefits

- Designed for solar panels and photovoltaic systems
- Effective against dirt, dust, bird droppings and general grime
- Non-caustic formulation
- Suitable for routine professional solar-panel cleaning
- Designed to clean without damaging glass or suitable panel frames when used as directed
- Highly concentrated – recommended dilution of 0.5%–1%

Recommended Applications

Suitable for the cleaning of photovoltaic modules, solar panels and glass surfaces. The product can be applied using compatible solar-panel cleaning equipment, soft-brush systems and suitable pressure-washing equipment, subject to the equipment manufacturer's recommendations.

Directions for Use

1. **Dilution:** Prepare a working solution at 0.5%–1% depending on the level of soiling.
2. **Application:** Apply the diluted solution evenly to the surface using suitable solar-cleaning equipment.
3. **Cleaning:** Agitate with an appropriate soft brush or cleaning system where required.
4. **Rinsing:** Rinse thoroughly with clean water where required by the cleaning method or equipment used.
5. **Important:** Do not apply to hot surfaces. Do not mix with other cleaning chemicals.

Technical Information

Product	Solar Clean Pro
Product type	Concentrated surfactant-based cleaner
Primary use	Solar and photovoltaic panel cleaning
Recommended dilution	0.5%–1%
Packaging	5 litre container
pH	Refer to current product specification / SDS
Surfactant content	<5% anionic surfactants; amphoteric surfactants
Storage	Store above 8°C; keep container tightly closed

Safety Information

Danger. Causes skin irritation. Causes serious eye damage. Wash hands thoroughly after handling. Wear protective gloves and eye protection. IF ON SKIN: Wash with plenty of water. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

Storage & Handling

Keep out of direct heat and frost. Store above 8°C in the original, closed container. Avoid unnecessary exposure to the product. Do not mix with other cleaning agents or chemicals.

Packaging

Pack size: 5 litres

UFI: 4FXC-V004-X004-QRAV

Important: This product data sheet is intended as general technical information. Always use the current product label and Safety Data Sheet (SDS) as the controlling documents for classification, hazard information, handling, storage and disposal. Product performance claims should be supported by the manufacturer's formulation and testing.
